## Examined In The Light of Bible Prophecy

"When these things begin to come to pass, then look up, and lift up your heads; for your redemption draweth nigh" (Luke 21:28).

## Preparation For The Great Tribulation

### Matthew 24:21,

*"For then shall be great tribulation, such as was not since the beginning of the world to this time, no, nor ever shall be."*

### Revelation 6:14,

*"And the heaven departed as a scroll when it is rolled together; and every mountain and island were moved out of their places."*

### Revelation 6:8,

*"I looked, and behold a pale horse: and his name that sat on him was Death, and Hell followed with him. And power was given unto them over the fourth part of the earth, to kill with sword ..."*

### First Thessalonians 5:3,

*"For when they shall say, Peace and safety; then sudden destruction cometh upon them, as travail upon a woman with child; and they shall not escape."*

## Hiroshima:

The bomb dropped on Hiroshima had the explosive power of 12,500 tons of TNT. At ground zero the temperature reached above 3,000 degrees centigrade. Within seconds, what had been a thriving city became a wasteland. We now have weapons three or four times as deadly as the bomb dropped on Hiroshima.

**Nicholas Wade's Book - *World Beyond Healing* (1987), gives us the following picture:**

*"The explosion of a nuclear weapon is an event of immense power... Within a fraction of a millionth of a second, the nuclear materials and casing of a one megaton weapon are transformed into a packet of energy five times hotter than the center of the sun."*

*"Out of this mini-sun bursts a flash of Xrays so intense that the air for several feet around the weapon is heated into an incandescent ball."*

*"This little fireball, only a few millionths of a second old, contains the vaporized contents of the weapon, and a vast flux of energy created by the fission and fusion reactions of the nuclear explosion. So immense an amount of energy packed into a tiny space creates temperatures of 100 million degrees centigrade and pressures of millions of pounds per square inch. A violent expansion begins."*

*"In less than a thousandth of a second, the fireball of a one-megaton weapon has grown to 440 feet across. In ten seconds, the fireball is more than a mile in diameter."*

## **The Doomsday Clock**

According to **The Bulletin of the Atomic Scientists**, in 1991 the doomsday clock was set at seventeen minutes to midnight. In 2018 it was set to two minutes to midnight where it remains today.

According to CNN, 4,000 warheads are presently operationally available, and 1,800 are ready for use on short notice.

**"When these things begin to come to pass, then look up, and lift up your heads; for your redemption draweth nigh"** (Luke 21:28).
